SUMMARY

Informatics Engineering graduate with experience building web applications using Laravel, PHP, JavaScript, Vue.js, MySQL, and Tailwind CSS. Experienced in developing business-oriented applications such as booking systems, inventory monitoring, and decision support systems. Skilled in responsive UI development and frontend-backend integration

SKILLS

Frontend: HTML5, CSS3, JavaScript (ES6+), Vue.js, Tailwind CSS, Bootstrap, Responsive Web Design, UI/UX Layouting.

Backend: PHP Native, Laravel.

Database: MySQL, Database Modeling (CDM / LDM / PDM).

Tools: Git, GitHub, VS Code, Laragon.

EXPERIENCE

PT Swadharma Sarana Informatika – Banjarmasin, Indonesia
Web Developer Intern (Sep 2025 – Dec 2025)

- Developed a responsive frontend for an ATM sparepart stock monitoring application using Bootstrap and JavaScript.
- Implemented automatic stock calculations, real-time data search/filtering, and form validation.
- Integrated the frontend with PHP and MySQL backend logic for inventory data management

SELECTED PROJECTS

SewaPro — Studio Booking & Photography Equipment Rental System
Laravel • MySQL • Tailwind CSS • JavaScript
Rental management application with double-booking prevention, 50% down-payment deadline handling, check-in/check-out, and automated late-return monitoring.

SPK & Monitoring Rastrada — Decision Support and Monitoring
Laravel • MySQL • TOPSIS • Bootstrap
Decision support system for ranking Rastrada beneficiary eligibility using the TOPSIS method, with beneficiary data monitoring.
